PROFESSIONAL SUMMARY

Data scientist and machine learning enthusiast with a strong foundation in mathematics, data analysis, and predictive modeling. Skilled in Python, SQL, machine learning techniques, data visualization, and modern analytical tools for developing predictive and data-driven solutions. Passionate about applying data-driven approaches to support real-world problem solving, informed decision-making, and operational improvements.

TECHNICAL SKILLS

- **Programming & Databases:** Python (Pandas, Numpy, Scikit-Learn, Matplotlib, Seaborn, Streamlit, Tkinter), SQL, Git
- **Machine Learning:** Classification, Regression, Clustering, Natural Language Processing (NLP), Model Evaluation
- **Statistics:** Hypothesis (A/B) Testing, Scipy
- **Data Visualization:** Tableau (BI)
- **Graphics Design:** Canva, Adobe Illustrator, Adobe Photoshop, Adobe InDesign
- **Software Development:** HTML, CSS, Django
- **Additional Tools:** Adobe After Effects, R, Matlab

PROFESSIONAL EXPERIENCE

Industrial Attachment | Quick Fiber Ltd | *(May – June 2024)*

→ Performed software testing for newly developed applications to ensure functionality and reliability.

→ learned and implemented backend development concepts using Django.

Voluntary | Brickwoods Schools Nanyuki | *(July – Aug 2022)*

→ Assisted with general office administration and supported the organization of library books and learning materials.

PROJECTS

View [my complete project portfolio](#) with my data science projects and code repositories.

Machine Learning Predictive Models ([Github](#))

Technologies: Python, Scikit-learn, Pandas, Numpy, NLTK

- Developed an [electric vehicle charging station placement prediction model](#) and interactive application using Random Forest Regression, K-Means Clustering, and Streamlit.
- Built a [Twitter sentiment analysis model](#) using Natural Language Processing techniques including TF-IDF vectorization and the NLTK library.
- Developed a [telecommunications customer churn prediction model](#) achieving 90% accuracy using Logistic Regression and Decision Tree algorithms.
- Conducted [movie genre data analysis](#) using SQL and Pandas for data manipulation, with visualizations created using Matplotlib and Seaborn.

EDUCATION

Data Science BootCamp (Certificate)

Moringa School | *Aug 2025 – Feb 2026*

Graphics Design (Certificate)

Shang Tao Media Arts College | *June – July 2025 / (Distinction)*

BSc. Mathematics and Computer Science (Degree)

Jomo Kenyatta University of Agriculture and Technology | *Sep 2021 – Dec 2025 / (First Class Honors)*

Computer Assembly and Repair (Certificate)

JKUAT Industrial Park | *June – July 2023*

Cisco Certified Network Associate (CCNA) (Certificate)

CISCO Networking Academy JKUAT | *May – Aug 2023*

Python Programming (Certificate)

JKUAT Enterprises | *May – July 2022 / (Distinction)*

Kenya Certificate of Secondary Education

Karima Girls High School | *2020 / (B+)*

REFEREES

Eng. Robert Chege

Production Manager, JKUAT Industrial Park

Email: robert.chege@jkuat.ac.ke, Phone: +254-701-040-495

Fredrick Ochieng

Research Manager, Epique Writers Co.

Email: fredrick.ochieng500@gmail.com, Phone: +254-702-836-217
